EFX-1000

Professional Series Digital Effector

DJ DJSOUNDS.COM

Pioneer sound.vision.soul

Additional Functions

- Embodying the digital vision of leading DJs and club installers, the EFX-1000 is the world's first effects unit to deliver 96 kHz/24-bit sampling and 32-bit sound processing.
- » Uniting this incredible audio purity with mind-blowing effects (including Rhythm Effect and Digital Jog Effects), the unit boasts a Digital Link function for use with Pioneer's decks and mixers. A Digital In/Out terminal with 96 kHz/24-bit sampling also gives DJs the option of switching the output sampling frequency, while the MIDI In/Out port further advances connectivity options.
- Extending the possibilities for the most extreme live performances by presenting the highest quality digital audio and effects, the outstanding EFX-1000 raises the bar for all professional effectors.
